

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Reporting Requirements Not Met for GREATER HARRISON PSD- VALLEY OF GOOD HOPE WV3301727

Our water system violated drinking water monitoring requirements. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During periods listed in the table below, we did not monitor or test as required and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

At this time, there is nothing you need to do.

The table below lists the monitoring we did not conduct, other violations, and the associated compliance period.

Monitoring Violation	Year-Fed Report #	Monitoring Frequency	Compliance Period
02, TTHM MCL Violation Exceedance	2023-544437 2023-544433	Quarterly	1 st Quarter 2023 3 rd Quarter 2022

What happened? What is being done? (Describe corrective action)

Increased chlorination led to an over-exceedance in acceptable level of these by-products. Chlorination has been lowered to acceptable levels.

For more information, please contact Justin Chisler at 304-745-3463
